Approved Resolution 23-0531R - RESOLUTION AUTHORIZING AN AGREEMENT WITH TKDA FOR ENGINEERING SERVICES RELATED TO THE DESIGN OF WAABIZHESHKANA: THE MARTEN TRAIL SEGMENTS 0, 1, and 2 PROJECT.

BACKGROUND: Waabizheshkikana (The Marten Trail), once referred to as the Western Waterfront Trail, consists of an existing 3.3-mile multi-use recreational trail that traces the shore of the St. Louis River Estuary. A mini master plan was approved in 2019 with the following major recommendations:

1. Rebrand the Western Waterfront Trail as a heritage trail, including renaming the trail to reflect and honor the cultural and historical significance of the area.
2. Initiate a separate heritage interpretive planning process to identify and articulate the stories of the

river and the area.

3. Retain the entire existing LSMR rail line for excursion train use.
4. Extend the existing trail to connect seven river corridor neighborhoods by way of a trail alignment that traverses the shoreline and nearby ridgeline.
5. Improve three existing water access sites and develop three additional water access sites to increase public riverfront use.
6. Design all these facilities to ensure accessibility, regardless of income, age or physical ability.

A Cooperative Agreement between the City of Duluth and National Park Service for the design and development of Waabizheshikana: The Marten Trail, was accepted in 2022. The Cooperative Agreement provides for multi-year technical assistance, as well as an initial financial award of \$35,000 to be used for further design of Segment 2 of Waabizheshikana, to include the Munger Landing and Blackmer Park Trailheads, as well as pause area elements identified in Waabizheshikana: The Marten Trail Interpretive Plan along Segments 0-2. Three amendments have been made to the original contract to increase the total funding to \$539,500.00.

BUDGET/FISCAL IMPACT: Budget is now \$153,949.00, from the Half & Half Tax Projects fund Waabizheshikana Trail, Seg 0-3: 63rd Ave W to Boathouse Pt

OPTIONS: Approve the resolution and the design of the trail can continue as planned. If denied the project will be halted
