Comprehensive Plan Governing Principle and/or Policies and Current History (if applicable):

Governing Principle #8 - Encourage mix of activities, uses, and densities. A short-term rental allows property owners to generate income and provides a service for tourists.

Econ. Dev. Policy #3 - Build on Existing Economic Strengths & Competitive Advantages

- **S9:** Encourage expansion of the city's tourism economy through efforts to expand in areas of current activity, such as in Canal Park, but also through marketing and investment in destination neighborhoods and iconic tourism experiences unique to Duluth.

Future Land Use – Traditional Neighborhood: Characterized by grid or connected street pattern, houses oriented with shorter dimension to the street and detached garages, some with alleys. Limited commercial, schools, churches, and home businesses. Parks and open space areas are scattered through or adjacent to the neighborhood. Includes many of Duluth's older neighborhoods, infill projects, neighborhood extensions, and new traditional neighborhood areas.

History: This 1,200 sq. ft. home was built in 1964 and contains 4 bedrooms. This proposed vacation rental is located in the lower level with separate access.

Review and Discussion Items:

- 1) Applicant's property is located at 130 Charlotte Place. The proposed vacation dwelling unit contains 1 bedroom, which would allow for a maximum of 3 guests.
- 2) The applicant is proposing 1 off street parking space on a driveway/parking area located in the side yard area with access from the street
- 3) The applicant has indicated there will not be a space for camper or trailer storage by VDU guests.
- 4) The applicant has does not indicate any outdoor amenities on the site plan. The site plan depicts a dense screening of trees on two sides and a retaining wall built up on the adjacent property above. Because the required dense urban screen must be maintained continuously by the applicant, the retaining wall does not constitute part of the screening. Staff recommends the applicant provide photos of the trees in the property's rear yard to confirm they meet the requirement of 75% opacity prior to receiving the interim use permit.
- 5) Permit holders must designate a managing agent or local contact who resides with 25 miles of the City and who has authority to act for the owner in responding 24 hours a day to complaints from neighbors or the City. Permit holder must provide the contact information for the managing agent or local contact to all property owners within 100 feet of the property boundary. The applicant has listed themselves to serve as the managing agent.
- 7) A time limit on this Interim Use Permit ("IUP") is needed to minimize negative impacts to surrounding residential uses thereby causing damage to the public's health, safety and welfare. Section 50-20.3.U.7 states the IUP shall expire upon change in ownership of the property or in six years, whichever occurs first.
- 8) Applicant must comply with Vacation Dwelling Unit Regulations, including providing information to guests on city rules

(included with staff report as "Selected City Ordinances on Parking, Parks, Pets, and Noise").

9) No comments from City staff, or any other entity were received regarding the application.

10) The permit will lapse if no activity takes place within 1 year of approval.

Staff Recommendation:

Based on the above findings, Staff recommends that Planning Commission approve the permit subject to the following conditions:

- 1) The applicant shall adhere to the terms and conditions listed in the Interim Use Permit.
- 2) Prior to receiving the interim use permit, the applicant shall provide evidence that the existing vegetation in the rear yard meets the screening requirement of 75% opacity.
- 3) Any alterations to the approved plans that do not alter major elements of the plan may be approved by the Land Use Supervisor without further Planning Commission review; however, no such administration approval shall constitute a variance from the provisions of Chapter 50.
