Job Title

Which Boards would you like to apply for?

Duluth Public Utilities Commission: Submitted

Interests & Experiences

Why are you interested in serving on a board or commission?

I would like to utilize my engineering and professional skills that I have developed over the last 20 years in my career to serve my community. I have been interested in being on a board or commission where I can use my skills to assist others in the community. I feel that the Public Utilities Commission would allow me to do this. I think it would also be a good experience for me to be a member of a Public Utilities Commission, as our business is also regulated by the Minnesota Public Utilities Commission.

Natural gas, sewer, water

Specify TWO utilities regulated by the Duluth Public Utilities Commission that you use and pay for:

Specify your expertise in the areas of utility operation, finance and utility construction, or other relevant experience and the duration of the experience.

My profession as a civil engineer for over the last 20 years uniquely qualifies me to be a knowledgeable member of the Duluth Public Utilities Commission. During my career I have managed long term capital and O&M projects and budgets for a variety of infrastructure including sewers, roofs, and roads. In my current role at Minnesota Power, I develop natural gas supply strategies including commodity purchases, as well as pipeline transportation contracts for all of MP's generation facilities. I have worked with the City of Duluth Gas Control staff and understand the city gas system. I also can bring a unique perspective to the Commission, not only as a resident, but also representing a large gas user in the City (Minnesota Power's Hibbard Renewable Energy Center).
