Form 02 Project Information

System type:

Project title (max 30 char):

Project description (please discuss the problem/need and the proposed solution/project):

The project scope includes replacing existing lead or galvanized water service lines with new HDPE service lines in the Gary Neighborhood of Duluth, Minnesota. Approximately 165 homes are included in this specific project scope with allowance for an additional 30 homes to be added as determined by the Engineer. Some homes will have service lines replaced from the curb stop to the internal building connection to the water meter and some will have service lines replaced from the corporation stop on the watermain to the internal building connection to the water meter.

Project the service area (describe addresses, street names, or area(s)):

General description:

The project is in Duluth's Gary Neighborhood. Individual addresses for each residence ("SITE") are included in the Plans. 165 residences are identified in the Plans.

Identify each local governmental jurisdiction (cities and townships) in the project service area (provide additional sheets if needed):

Jurisdiction 1	Duluth
Jurisdiction 2	
Jurisdiction 3	
Jurisdiction 4	

Please use the space below to identify if other jurisdictions are included, and attach map of the service area.

Refer to attached location map.

Project scope:

Will the project be done as part of a larger infrastructure project that will be included in the same bid, share road construction costs, etc.? If so, please describe how the projects are related.

N/A

Estimated bid date:

Estimated year that construction will start:

Estimated year that construction will end:

Form 02 Project Information

Project site ownership / rights of way:

Please provide a link to (or attach a copy of) the code and ordinances that identify ownership of the water service lines:

Authority to undertake LSL replacement work on private property:

Please provide a link to (or attach a copy of) the code and ordinances provide this authority:

The City has signed work authorization agreements with each property owner. A sample is attached.

Describe the factors the City used to select the area for the LSLR project including health equity and efficient use of funds:

(1) The City has identified that there are LSLs, an imminent threat to public health, in the Gary neighborhood of Duluth; (2) The project is located in a residential zone with children under the age of five; and (3) The project is located in Census Tract 33, a Low-Income Community Opportunity Zone, in Duluth, MN.

Describe the community outreach that will be used for the LSLR project:

The City has conducted extensive outreach already including signed work agreements with each property owner, disbursement of pitcher filters, and public education materials. During construction the City will utilize public meeting, direct mailings, and the City's website to educate residents regarding the hazards of lead, distribute pitchers and water sampling kits, project status, and additional public education materials.

Describe the planned contracting method, e.g.: all work under one main construction contract, by individual property owners selecting their own contractor, other:

All work will be performed by a single contractor under one main construction contract administered by the City.

Project Sign and Project Funding Notice:

All recipients will be required to post a physical sign at the project site. Additional information on the sign specifications will be provided in the Contract Packet and Guidance Document.

MPFA will provide a Funding Notice upon award. MPFA requests posting the Funding Notice on the Recipient's website and/or in other public locations.

Form 03 Project Costs: Sources and Uses

Whenever this form is updated, please complete the date and source.
 A revised version must be submitted after as-bid costs are known.

Date updated: 03/07/24
 Source of Costs: as-bid costs

Estimated Number of Lead Service Lines to be replaced: 195

Applicant's allocation of split between public and private share of each line:
 (please enter a whole number between 0 and 100 as the public share percentage)

4,657,238	2,561,481	2,095,757

Notes on allowable and unallowable uses (NOT comprehensive):

- per MN Statutes §446A.077 subdivision 4. Eligible uses:
 An eligible recipient may use a grant provided under this program for:
- (1) removing and replacing lead drinking water service lines;
 - (2) repaying debt incurred for the purposes described in clauses (1), (3), and (4);
 - (3) providing information to residents on the benefits of removing lead service lines; or
 - (4) performing necessary construction activities required for and associated with removing and replacing lead service lines.

MPFA LSLR grant agreements will limit eligible costs to direct expenditures related to LSLR project implementation or to LSLR program outreach to residents about the benefits of LSLR.

- MPFA will not allow:
- Any overhead costs
 - Work by individuals that are not directly involved in the LSLR program
 - Preparation of grant/loan applications, or disbursement requests
 - Post-completion audits or monitoring
 - Travel/mileage, food
 - Computers, phones, equipment
 - General office supplies (except costs specifically for LSLR outreach)
 - Rental payments for staff space or meetings
