Subject: Proposed Riley Road Dog Park

TO: City Councilors and Department of Parks and Recreation

REGARDING: Proposed Riley Road/Duluth East Dog Park Site

Thank you for your consideration and forward movement of the eastern area dog park. I am a newer resident to the area and live between Duluth and Two Harbors. A park on the eastern side of town would be a great benefit for this area. It's quite a jaunt for me to get to Observation park (although we do use this one and find it's a very nice area) and I have not been to Keene because of the distance.

As a newcomer I have met a wonderful group of people with similar interests: our pups! I have been made to feel very welcome and feel another park would only enhance our community. The volunteers committed to this project and all of the parks have showed how they can step up to the plate and streamline the process which shows in the success of the current parks and how many people/pups use them.

Please continue to drive this project forward.

Many thanks,

Michelle and Reuben Fischer
