BACKGROUND: This resolution will authorize City Officials to enter into a contract with A-1 Excavating LLC for the relocation of a 24-inch water main from the intersection of 26th Avenue East and London Road where MnDOT requested utility removal for the construction of a new traffic circle. The new water main will be constructed in Jefferson Street alley and 25th Avenue East. The project is planned to be constructed in two phases, the first, impacting London Road and 25th Avenue East for about three weeks. The second phase will close Jefferson Street Alley and 26th Avenue East for approximately five weeks.
