Summary of Code Requirements:

Vacation of public rights of way and/or easements require a Planning Commission public hearing with a Recommendation to City Council. City Council action is to approve or deny by resolution. Resolutions approving either a full or partial vacation require a 6/9's vote of the council.

UCD Sec. 50-37.6.C – The Planning Commission shall review the proposed vacation, and Council shall approve the proposed vacation, or approve it with modifications, if it determines that the street, highway, or easement proposed for vacation:

1. Is not and will not be needed for the safe and efficient circulation of automobiles, trucks, bicycles, or pedestrians or the efficient supply of utilities or public services in the city;

2. Where the street terminates at a waterfront or shoreline, the street is not and will not be needed to provide pedestrian or recreational access to the water;
3. Is not otherwise needed to promote the public health, safety, or welfare of the citizens of Duluth.

Comprehensive Plan Governing Principle and/or Policies and Current History (if applicable):

Governing Principle #5 - Promote reinvestment in neighborhoods. The vacation will allow for the applicant to combine parcels owned either side of the unimproved right of way.

Future Land Use – General Mixed Use: The broadest mix of uses, including light industrial, office, commercial, and residential use, with performance standards to ensure compatibility. Includes areas that are in transition from industrial uses and large redevelopments that require master plans and phased development.

History – The adjacent properties have been used historically as a tar plant, a junkyard, and currently a contractor shop for EBI Drilling.

Review and Discussion Items:

Staff finds that:

1. The applicant is requesting to vacate an unimproved portion of the platted street 5th Avenue West currently known as 60th Avenue West as part of the West Duluth 4th Division, as shown on the attached exhibit.
2. The proposed vacation is 66 feet wide and 371 feet long. The platted right of way dead-ends on the south end.
3. The proposed vacation will help create larger lots for the applicant who owns the parcels on the east and west of the proposed vacated right of way. The vacation cleans up an unused right of way and grants the space that is already used by the adjacent owner.
4. There are no utilities located with within the right of way.
5. The street is not be needed by the City for the promotion of public health, safety, or welfare of the citizens of Duluth since City Engineering does not expect to need it in the future.
6. The City has determined that the rights of way are not needed for street or pedestrian use. Vacating the right of way will not impact or deny access to other property owners.
7. Other than City Engineering, no other public or City comments have been received at the time of drafting this report.
8. Vacations of rights of way and easements lapse unless the vacation is recorded with the county recorder within 90 days after final approval. The vacation recording is facilitated by the City of Duluth.

Staff Recommendation:

Based on the above findings, Staff recommends that Planning Commission recommend approval of the vacation with the following conditions:

- 1.) The vacation must be recorded within 180 days of final approval by City Council or such approval will lapse.
- 2.) Any alterations to the approved plans that do not alter major elements of the plan may be approved by the Land Use Supervisor without further Planning Commission; however, no such administration approval shall constitute a variance from the provisions of Chapter 50.
