Subject: Kenwood project

I would first like to thank you for your time and service. I am writing in regards to the proposed townhouse project in Kenwood on Mississippi avenue. I strongly oppose this project. It seems like he is trying to beat the system by calling it a townhouse but then renting out the rooms individually to college students. Isn't that an apartment building? The area needs homes for professors and faculty at the universities not more housing for students. I hope you go with the consensus here and oppose this development.

Greg
