RE: Housing with Supports for Adults with housing barriers

I am writing on behalf of Center City Housing to support the Garfield Avenue Apartment project.

Duluth continues to be challenged with appropriate and affordable housing for our marginalized populations including our seriously mentally ill.

Robust housing with supports is vital to our Duluth community and St. Louis County whole-heartedly supports our community's collaborative efforts.

I commend Center City Housing as they have been a champion in working with the community to provide housing for our very hard to house folks.

Please feel free to call if you would like further information.
