

State of Minnesota

Office of the State Auditor

Julie Blaha
State Auditor

Duluth Airport Authority (A Component Unit of the City of Duluth, Minnesota)

Year Ended December 31, 2022

Description of the Office of the State Auditor

The Office of the State Auditor (OSA) helps ensure financial integrity and accountability in local government financial activities. The OSA is the constitutional office that oversees more than \$40 billion in annual financial activity by local governments and approximately \$20 billion of federal funding financial activity.

The OSA performs around 90 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office maintains the following seven divisions:

- **Audit Practice:** Helps ensure fiscal integrity by conducting financial and compliance audits of local governments and the federal compliance audit of the State of Minnesota.
- **Constitution:** Connects with the public via external communication, media relations, legislative coordination, and public engagements for the State Auditor.

This division also supports the State Auditor's service on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, the Minnesota Historical Society, and the Rural Finance Authority Board.

- **Government Information:** Collects, analyzes, and shares local government financial data to assist in policy and spending decisions; administers and supports financial tools including the Small Cities and Towns Accounting System (CTAS) software and infrastructure comparison tools.
- **Legal/Special Investigations:** Provides legal analysis and counsel to the OSA and responds to outside inquiries about Minnesota local law relevant to local government finances; investigates local government financial records in response to specific allegations of theft, embezzlement, or unlawful use of public funds or property.
- **Operations:** Ensures the office runs efficiently by providing fiscal management and technology support to the office.
- **Pension:** Analyzes investment, financial, and actuarial reporting for Minnesota's local public pension plans and monitors pension plan operations.
- **Tax Increment Financing (TIF):** Promotes compliance and accountability in local governments' use of tax increment financing through education, reporting, and compliance reviews.

Independent Auditor's Report

Mayor and City Council
City of Duluth, Minnesota

Board of Directors
Duluth Airport Authority
Duluth, Minnesota

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Duluth Airport Authority, a component unit of the City of Duluth, Minnesota, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Duluth Airport Authority as of December 31, 2022, and the changes in financial position, and its cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Change in Accounting Principle

As discussed in Note 1 to the financial statements, in 2022, the Authority adopted new accounting guidance by implementing the provisions of Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*, which represents a change in accounting principles. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore, is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit;
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed;
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements; and
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Changes in Total OPEB Liability and Related Ratios – Other Postemployment Benefits, PERA retirement plan schedules, and Notes to the Required Supplementary Information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic

financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Duluth Airport Authority's basic financial statements. The Statement of Operating Revenues and the Schedule of Expenditures of Federal Awards and related notes, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and Schedule of Passenger Facility Charges Collected and Expended are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information as identified above is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 21, 2023, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Duluth Airport Authority

Duluth, Minnesota

Management's Discussion and Analysis December 31, 2022 (Unaudited)

Our discussion and analysis of the Duluth Airport Authority's (Authority) financial performance provides an overview of the Authority's financial activities for the fiscal year ended December 31, 2022. Please read it in conjunction with the financial statements.

Financial Highlights

The Duluth Airport Authority along with the rest of the world, faced substantial challenges in 2020 which continued in to 2021 due to the COVID-19 pandemic. 2022 proved to be a year of recovery for the Duluth Airport Authority. Financial highlights are listed in the bullet points below.

- Total number of passengers including charters increased 22 thousand, or 10 percent, for a total of 241.7 thousand in 2022.
- Total traffic count as recorded by the Federal Aviation Administration tower decreased by 5.9 thousand, or 9 percent, to 61 thousand.
- Operating expenses (before depreciation and amortization) increased \$738 thousand, or about 15 percent, compared to fiscal year 2021.
- Operating revenues increased by \$348 thousand, or 6 percent, primarily due to increased non-aeronautical revenues including concession payments received. Revenues were deflated in 2022 due to credits for COVID concessionaire relief. The Authority received \$133 thousand in ARPA Concessionaire relief to offset these credits.
- Nonoperating federal and state grant revenues and other contributions increased by \$10 million, or 222 percent, from 2021.
- Total net position increased \$4.4 million, or 4 percent, compared to fiscal year 2021.
- Landing fee revenues for 2022 decreased by \$7 thousand, or 2 percent.
- Passenger facility charge revenue increased by \$16 thousand in 2022, or 3.5 percent, compared to 2021, which is attributed to the increase in passengers in 2022.
- Customer facility charges collected in 2022 increased by \$28 thousand, or 14 percent, from 2021.
- Total parking lot sales increased by \$301 thousand, or 30 percent, for 2022.

- Total car rental concession sales decreased by nearly \$85 thousand, or 16 percent, for 2022. ARPA Concessionaire relief and COVID CFC relief credits of \$137 thousand were applied in 2022. ARPA Concessionaire relief funds were received in lieu of concession payments.
- State Maintenance and Operations grant reimbursements of \$224.9 thousand were received between both Duluth International and Sky Harbor Airports, which was an increase of \$2 thousand.
- The Transportation Security Administration's agreement with the Authority reimbursed the Authority approximately 13.4 hours per day at \$20 per hour for contracted law enforcement personnel. This totaled \$98 thousand, or approximately \$8.2 thousand per month.

Overview of the Annual Financial Report

The Management's Discussion and Analysis (MD&A) serves as an introduction to the Duluth Airport Authority's financial statements. The MD&A represents management's examination and analysis of the Authority's financial condition and well-being. Summary financial statement data, key financial and operational indicators used in the Authority's strategic plan, budget, and other management tools were used for this analysis.

The financial statements report information about the Authority using full accrual accounting methods as utilized by similar business activities in the private sector.

The financial statements include a statement of net position; a statement of revenues, expenses, and changes in net position; a statement of cash flows; and notes to the financial statements. The statement of net position presents the financial position of the Authority on a full accrual, economic resource basis of accounting. While the statement of net position provides information about the nature and amount of resources and obligations at year-end, the statement of revenues, expenses, and changes in net position presents the results of the business activities over the course of the fiscal year and information as to how the net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. This statement also provides certain information about the Authority's recovery of its costs.

The statement of cash flows presents changes in cash and cash equivalents resulting from operational, financing, and investing activities. This statement presents cash receipt and cash disbursement information without consideration of the earnings event, when an obligation arises, or depreciation of capital assets.

The notes to the financial statements provide required disclosures and other information that are essential to a full understanding of material data provided in the statements. The notes present information about the Authority's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies, and subsequent events, if any. The financial statements were prepared by the Authority's staff from the detailed books and records of the Authority. The financial statements were audited and adjusted during the independent external audit process.

Summary of Organization and Business

The Legislative Act of 1969, Chapter 577, as approved on May 22, 1969, authorized the organization of the Authority. The purpose of this act was to promote the public welfare and to serve the public interest, convenience and necessity, promote air navigation and transportation, national, state, and local; and to these ends, to develop full potentials of aviation in the City of Duluth as an aviation center; and to provide for the most economical and effective use of aeronautical facilities and services in the City of Duluth; and to this end, the Authority shall cooperate with and assist the federal government and the Director of Aeronautics of this state, and shall seek to coordinate its aeronautic activities with these bodies. This Legislative Act established a Board of seven Directors appointed by the Mayor and conferred upon this Board the power and duty to administer, promote, control, direct, and manage and operate all airports owned. On October 9, 1985, the Bylaws were adopted and have been amended several times since. These Bylaws established regular monthly meetings, a term for officers, and the appointment of an Executive Director.

The Duluth Airport Authority's vision is to be a world-class aviation center that drives economic development and connects the region to the global economy. The mission statement is, "The Duluth Airport Authority is committed to delivering a superior airport experience in a safe and secure environment, while enriching the region's economy."

The Duluth International Airport consists of two runways, which provide take-off and landing facilities for all types of commercial and general aviation aircraft, as well as military aircraft. The main runway 9-27 is 10,591 feet long by 150 feet wide and can handle the world's largest aircraft. The cross runway 3-21 is 5,719 feet long by 150 feet wide. The Duluth International Airport is located on 3,294 acres of land and encompasses approximately one-half of the old Duluth Air Force Base. The Authority also operates Sky Harbor Airport, which is both a sea plane base and a general aviation airport. The landside runway is 2,600 feet long by 75 feet wide. In the bay, there is also a 10,000-foot by 2,000-foot water runway.

Operating revenue for the Authority comes from a variety of sources, including car rental concessions, parking, space, land and building rentals, Fixed Base Operator (FBO) concessions, Transportation Security Administration reimbursement for law enforcement, maintenance and operations grant funds from the State of Minnesota, and landing fees. The Authority is self-sufficient and is not subsidized by the City of Duluth for operations or capital improvement costs.

Financial Analysis

The following comparative condensed financial statements and other selected information serve as the key financial data and indicators for management, monitoring, and planning.

Condensed Statement of Net Position (000s)

	Fiscal Year 2022		Fiscal Year 2021	
Current and other assets	\$	16,903	\$	12,255
Capital assets – net of accumulated depreciation		112,882		112,969
Construction in progress		2,101		170
Total Assets	\$	131,886	\$	125,394
Deferred Outflows of Resources	\$	818	\$	1,034
Current liabilities	\$	2,410	\$	1,884
Noncurrent liabilities		9,384		9,505
Total Liabilities	\$	11,794	\$	11,389
Deferred Inflows of Resources	\$	2,401	\$	929
Net Position				
Net investment in capital assets	\$	109,378	\$	106,905
Unrestricted		9,131		7,205
Total Net Position	\$	118,509	\$	114,110

As the table illustrates, net position increased by \$4.4 million to \$118.5 million in 2022. This was mostly due to an increase in capital contributions in 2022.

Condensed Statement of Revenues, Expenses, and Changes in Net Position (000s)

	Fiscal Year 2022		Fiscal Year 2021			
	Budget	Actual	Actual			
Total operating revenues	\$	5,629	\$	5,826	\$	5,478
Total operating expenses		(16,581)		(16,425)		(16,135)
Income (Loss)	\$	(10,952)	\$	(10,599)	\$	(10,657)
Nonoperating revenues		593		647		500
Capital contributions		12,856		14,521		4,506
Nonoperating expenses		(285)		(169)		(183)
Change in Net Position	\$	2,212	\$	4,400	\$	(5,834)

Revenues

Operating revenues increased by \$348 thousand, or 6 percent, in 2022 relative to 2021. The increase is due primarily to increases in non-aeronautical revenues of 11.7 percent due to increased passengers, a 4.5 percent increase in non-passenger aeronautical revenue. Passenger Airline Aeronautical Revenues

decreased by 1.6 percent due to fee waivers provided to Sun Country. An increase in passengers indirectly affects non-aeronautical revenues as the additional business supports our car rentals, food and beverage, vending and parking operators as well as other commercial services. There have been continuous efforts to draw more commercial air service traffic and increase aeronautical revenues as well as the non-aeronautical revenues associated with the increased passenger traffic. The Authority continues to advertise all marketable space in hopes of continuing to have minimal vacant space and increased rent revenues in the future. A master rates and charges addendum is reviewed, updated, and approved by the Duluth Airport Authority Board, which provides an opportunity to increase or adjust rates to keep up with inflation and increases costs. A master plan continues to be under review, which has identified future opportunities for development of airport land and diversification of revenue sources.

Expenses

The Duluth Airport Authority's operating expenses exclusive of depreciation and amortization increased by \$738 thousand to \$5.68 million in 2022, up from \$4.9 million in 2021. This increase is partially due to GASB 68 pension liability adjustments; increases in utilities, especially storm water fees; an emergency repair of a storm water retention pond; and increases in contracts for services, such as janitorial and security. Maintenance contracts continue to increase with the cost of inflation.

Budgetary Highlights

The Duluth Airport Authority develops an annual operating budget which includes proposed expenses as well as proposed sources of revenue to pay for them. The Authority's Board approves the operating budget, and it also receives final approval from the Duluth City Council. The Authority's operating budget is adjusted as needed when noticeable changes in business are known to affect the budget. Management and the Board of Directors are presented detailed monthly financial statements, an in-depth quarterly analysis, and an annual analysis of key indicators and budgetary progress.

The COVID-19 pandemic had the unanticipated effect of reducing airport revenues in 2020 which slowly began to recover in 2021 and continued into 2022. The Duluth Airport Authority received CRRSA and ARPA COVID relief grants to assist with the operations expenses of the airports. All of the CRRSA funds were depleted in 2022. Concessionaire relief grants were also received to help both the airport and airport businesses. The budget for 2022 took into consideration the lingering effect of the pandemic on airport revenues and expenses as well as the stimulus grants. The 2023 budget assumes continued effects of recovery, the use of remaining COVID relief funds, as well as assumptions on the success of direct Sun Country air service to both Phoenix, Arizona, and Fort Myers, Florida. The Authority has since been informed that Sun Country service to Phoenix will not be returning for the 2023 to 2024 winter season.

The airline industry remains competitive and fluid, while adverse to risk. An industry pilot shortage due to regulations continues to make it difficult to attract new or existing air carriers to add flights to new destinations, as regional air carriers do not have the pilots to fly their existing fleets. This issue is being monitored and considered as the establishment of additional air service to our market is continually being pursued. Positive for Duluth, daily flights from United Airlines between Duluth and its Chicago O'Hare hub have been successfully in place for more than twelve years. Sun Country seasonal service offered a warm destination to the region and provided an increase in revenues to the airport.

Competition increases growth and opportunity. Finally, Monaco Air Duluth continues to have productive and successful operations as the FBO offering quality service with a well-respected reputation. Monaco's services and operations continue to foster activity for international, corporate, charter, and general aviation users of the Duluth Airport as well as revenues for the Authority. The Authority is working diligently to continue to offer safe operations and take advantage of programs which help support the operation of the airports.

The Authority continues to make improvements to facilities and infrastructure and respond to new security directives. In 2022, the following projects reached completion and were transferred to or removed from capital asset records: (1) runway, taxiway, roadway and apron design, construction or rehabilitation, and lighting at Duluth International and Sky Harbor Airports – \$9.87 million; (2) airport planning projects, including DLH master plan, Exhibit A, Hangar 101 demo, zoning, Air Traffic Control Tower reimbursable agreement, Sky Harbor building study and noise study – \$1.3 million; (3) vehicle and equipment acquisitions or disposals – \$206.6 thousand; (4) parking equipment and CCTV equipment – \$187 thousand; and (4) Hangar 101 and other demolition or disposal – (\$128.6 thousand).

Since 2017, the major focus at both airports has been and will be runway and taxiway and apron reconstruction as well as replacing important pieces of our aging snow removal equipment fleet and potential for updated tower facilities. The Duluth Airport Authority is always searching for opportunities to update and improve infrastructure as well as searching for new funding sources for those opportunities.

An updated union contract between the Authority and AFSCME Local 66 was negotiated in 2022 and went into effect beginning January 1, 2023, through December 31, 2025. Updates included title changes, updates to annual CPI adjustments for wage scales, one additional holiday and some adjustments to shift differential pay. Memorandums of understanding were incorporated into the new agreement.

Capital Assets (000s)				
	Fiscal Year 2022	Fiscal Year 2021	Dollar Change Increase (Decrease)	Total Percent (%) Change
Land	\$ 3,376	\$ 3,376	\$ -	0.00%
Land Improvements	27,078	26,816	262	0.98%
Runways	131,099	121,493	9,606	7.91%
Buildings	90,517	90,646	(129)	-0.14%
Equipment	13,046	12,652	394	3.11%
Construction in progress	2,101	170	1,931	1135.88%
Total capital assets	\$ 267,217	\$ 255,153	\$ 12,064	4.73%
Less: accumulated depreciation	(152,234)	(142,014)	(10,220)	7.20%
Net Capital Assets	\$ 114,983	\$ 113,139	\$ 1,844	1.63%

By the end of 2022, the Authority had invested approximately \$267.2 million in capital assets since its inception.

The Authority updates its Airport Capital Improvement Program annually, which provides an itemized list of all anticipated future projects and funding sources for the next 20 years. Additional funding source opportunities as well as a strategic focus on development and infrastructure renewal projects provides for continued plan for substantial capital investments through that planning horizon.

Debt Administration

The City of Duluth issued General Obligation Airport Improvement Bonds for the Authority with a face value of \$7,650,000 in May 2012. The bond proceeds were used as the local match on federal and state grants for the “project,” including the terminal, access roads, apron, and parking ramp. In 2021, these bonds were refunded, and the operating share of the debt was paid off using COVID relief funds. The remaining share of the debt will be paid using CFC and PFC funds. The debt schedule shows a final payment in 2026.

The City of Duluth issued General Obligation Airport Improvement Bonds for the Authority with a face value of \$3,400,000 in December 2013. These bonds were to be repaid over 16 years with a final payment in 2027. The bond proceeds were used as the local match on federal and state grants for completion of the parking ramp facilities.

Finally, the City of Duluth issued General Obligation Airport Improvement Bonds for the Authority in November 2015 with a face value of \$2,855,000. These bonds were to be repaid over a period of 15 years with a final payment in 2030. The bond proceeds were used for the renovation of Hangar 103 to suit the needs of LSC’s Center for Advanced Aviation.

Economic and Other Factors

When setting the 2023 budget, the Authority took many factors into consideration: expected slow recovery from the COVID pandemic; the continuing financial and operational turmoil of the commercial aviation sector; the continuing vigilance of security requirements and its effects on commercial air travel and airport passenger handling; weather conditions which dictate utility costs and overtime for snow removal crews; energy, operating supplies, labor, and benefits price increases; and a general review of all rates and services so that revenue will keep pace with expenses. The Authority continues to take steps to review and update all rental and concession fees to competitive rates and carefully manages its costs for equipment, supplies, and services. In 2023, it is expected that the parking lot will yield an increase in revenue due to the Authority staff cancelling the operating and concession contract with Reef parking and investing in infrastructure to self-manage the lots.

The Authority actively seeks new lessees to occupy vacant or upcoming vacant space as well as economic development opportunities that are a good fit for the aviation sector. A master planning process which includes research on development of land for other business purposes is in draft form awaiting approval, which includes opportunities for future development of hangars and facilities at DLH to continue to support and grow aviation as well as other potential development opportunities at the airport. The Authority continues to seek opportunities for diversifying revenue to be less reliant on airline revenue sources.

FINANCIAL CONTACT

This financial report is designed to provide our customers and creditors with a general overview of the Authority's finances and to demonstrate the Authority's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Director of Finance, Duluth Airport Authority, 4701 Grinden Drive, Duluth, Minnesota 55811.

Duluth Airport Authority Duluth, Minnesota

Notes to the Financial Statements As of and for the Year Ended December 31, 2022

Note 1 – Summary of Significant Accounting Policies

The accounting policies of the Duluth Airport Authority conform with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). The more significant accounting policies established in GAAP and used by the Authority are discussed below.

Financial Reporting Entity

The Duluth Airport Authority was created by the Legislature of the State of Minnesota in 1969 to operate and maintain the aeronautic facilities and services in the City of Duluth. The Authority is a component unit of the City of Duluth according to criteria established by the GASB for determining the financial reporting entity. Specific criteria include: the management of the Authority is vested in seven Directors appointed by the Mayor of Duluth and approved by the City Council, and the City Council approves the budget of the Authority.

Basis of Presentation

The accounts of the Duluth Airport Authority are presented as an enterprise fund. Enterprise funds are used to account for operations financed and operated in a manner similar to private business enterprises—where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Enterprise funds distinguish operating revenues from nonoperating items. Operating revenues generally result from providing and delivering services in connection with a principal ongoing activity. The principal operating revenues of the Authority are charges to customers for the use and lease of airport facilities. All revenues not meeting this definition are reported as nonoperating revenues.

Basis of Accounting

The Authority uses the full accrual, economic resource basis of accounting. Revenues are recognized when they are earned, and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows.

Budget

The Authority adopts an annual budget, which is approved by the Duluth City Council. The budget is prepared on the accrual basis of accounting.

Duluth Airport Authority

Duluth, Minnesota

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and investments held by the Duluth City Treasurer. Investments are stated at fair value. For purposes of the statement of cash flows, all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased are considered to be cash equivalents.

Accounts Receivable

Amounts due from individuals and organizations are recorded as receivables at year-end. These include amounts owed pursuant to lease agreements. No allowance for uncollectible receivables has been provided because such amounts are not expected to be material.

Inventory and Prepaid Items

Inventories of materials and supplies are priced at the lower of cost or market on a first-in, first-out basis and are recorded as expenses when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Restricted Assets

Monies restricted for the payment of construction contracts and passenger facility charge revenues are accounted for as restricted assets.

Capital Assets

Purchased or constructed capital assets are stated at cost. Donated capital assets are recorded at acquisition value on the date of donation. The Authority's policy is to capitalize assets with a useful life of one year or more and a minimum cost of \$5,000. Depreciation of capital assets is determined using the straight-line method. The estimated useful lives of the assets are:

Estimated Useful Lives of Capital Assets	
<u>Classification</u>	<u>Years</u>
Land improvements	15
Runways	10 to 15
Buildings and structures	20 to 30
Equipment	5 to 10

Other Assets

Airport planning costs and lease buyout costs are being amortized by the straight-line method over ten to 20 years.

Duluth Airport Authority

Duluth, Minnesota

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and will not be recognized as an outflow of resources (expense) until then. The Authority reports deferred outflows of resources associated with other postemployment benefits (OPEB) and the defined benefit pension plan.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. The Authority reports deferred inflows of resources for the net present value of leases that mature beyond one year, amortized to revenue on a straight-line basis over the lease terms. The Authority also reports deferred inflows of resources associated with OPEB and the defined benefit pension plan.

Unearned Revenue

Amounts received as advance payments for construction, rentals, and commissions are reported as unearned revenue until they are earned.

Pension Plan

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA, except that PERA's fiscal year-end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates, and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Plan investments are reported at fair value.

Classification of Net Position

Net position in the financial statements is classified in the following components:

- Net investment in capital assets – the amount of net position representing capital assets, net of accumulated depreciation, and reduced by outstanding debt attributed to the acquisition, construction, or improvement of the assets.
- Restricted net position – the amount of net position for which external restrictions have been imposed by creditors, grantors, contributors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net position – the amount of net position that does not meet the definition of restricted or net investment in capital assets.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first and then unrestricted resources as needed.

Duluth Airport Authority

Duluth, Minnesota

Passenger Facility Charges

The Duluth Airport Authority has been authorized by the Federal Aviation Administration to collect passenger facility charges to finance capital improvements at Duluth International Airport and Duluth Sky Harbor Airport.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources; and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Change in Accounting Principles

During the year ended December 31, 2022, the Authority adopted new accounting guidance by implementing the provisions of GASB Statement No. 87, *Leases*, which establishes criteria for accounting and financial reporting for leases. The implementation of this statement resulted in changing the presentation of the financial statements by increasing the beginning balances of the leases receivable and deferred inflows by \$2,405,019.

Note 2 – Detailed Notes

Deposits and Investments

The Authority and the Duluth City Council are authorized by Minn. Stat. §§ 118A.02 and 118A.04 to designate a depository for public funds and to invest in certificates of deposit. Minnesota statutes require that all Authority deposits be covered by insurance, surety bond, or collateral.

The Authority may invest in the types of securities authorized by Minn. Stat. §§ 118A.04 and 118A.05.

The Authority invests funds in the City of Duluth's investment pool. The fair value of the investment is the fair value per share of the underlying portfolio. The Authority invests in this pool for the purpose of joint investment with the City in order to enhance investment earnings. There are no redemption limitations.

Additional disclosures, as required by GASB Statement No. 3, *Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and Reverse Repurchase Agreements*; and GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, are disclosed on an entity-wide basis in the City of Duluth's Annual Comprehensive Financial Report. The Duluth Airport Authority is a component unit of the City of Duluth.

Duluth Airport Authority

Duluth, Minnesota

The following is a summary of the Authority's cash as of December 31, 2022:

Cash and Cash Equivalents for the Year Ended December 31, 2022

Transfers and reclassifications for 2022 do not net out to zero because there was construction in progress transferred to "Other Assets – Airport Planning Costs," which is not included on this summary (\$1,298,523).

Duluth Airport Authority Duluth, Minnesota

The Authority's commitments with respect to unfinished construction projects as of December 31, 2022, are as follows:

Construction Commitments as of December 31, 2022

Projects			
AIP 74	\$	11,292,703	
SP-208		999,993	

Vacation and Sick Leave

Full-time employees are granted from 12 to 28 days of vacation time per year depending on their years of service. Maximum amounts of vacation time that can be accumulated range from 18 to 42 days. Unpaid vacation time earned at year-end is recognized as a liability in the financial statements. Sick leave is accrued by employees at the rate of four hours per pay period and may be accumulated to a maximum of 120 days, 60 days, or 30 days, depending on the employee's start date. Sick leave is recorded as an expense when paid. Employees are not compensated for unused sick leave. Any liability for earned, unused sick leave is not recognized in the financial statements.

Summary of Changes in Vacation Payable as of December 31, 2022

Accrued vacation payable, January 1	\$	122,227	
Vacation earned		111,650	
Vacation used		(107,731)	
Accrued vacation payable, December 31	\$	126,146	

Leases

The Airport leases terminal space (except for regulated leases), non-terminal buildings, and land to various third parties which terminate at various dates as late as 2069. The discount rate applicable to these leases is three percent. Payments are fixed annually or monthly.

During the year ended December 31, 2022, the Authority recognized the following related to its lessor agreements:

Lease Revenue for December 31, 2022

Lease revenue	\$	535,753	
Interest Income related to its leases		71,631	
Total	\$	607,384	

Duluth Airport Authority Duluth, Minnesota

Future principal and interest payment requirements related to the Authority's leases receivable at December 31, 2022 are as follows:

Future Lease Principal and Interest Payment Requirements as of December 31, 2022

Year Ended December 31	Principal	Interest
2023	\$ 77,794	\$ 69,381
2024	30,023	67,997
2025	31,105	66,881

2063-2067	371,553	43,043
2068-2069	85,637	2,468
Total	<u>\$ 2,329,827</u>	<u>\$ 1,855,539</u>

Regulated Leases

In accordance with GASB Statement 87, regulated leases between airports and aeronautical users are subject to regulations set forth by the Federal Aviation Administration and Department of Homeland Security. A lease receivable and a deferred inflow of resources are not recognized for these leases. Such regulated leases at the Duluth Airport include (a) lease and use agreements with certain airlines regarding the use of the terminal building and equipment and (b) non-terminal aeronautical buildings and land leases. Certain terminal space is subject to preferential or exclusive use by the Airlines. Delta had 2,936 square feet, United 822 square feet, and Sun Country 806 square feet of preferential space in the terminal during 2022. Non-terminal buildings and lands are leased on an exclusive basis.

During the year ended December 31, 2022, the Authority recognized the following from regulated leases:

Regulated Lease Revenue for December 31, 2022

Lease revenue	\$ 948,967
Revenue from variable payments	987,050
Total	<u>\$ 1,936,017</u>

Duluth Airport Authority

Duluth, Minnesota

Future expected minimum payments related to the Authority's regulated leases at December 31, 2022 are as follows:

Future Minimum Lease Payments Related to Regulated Leases at December 31, 2022

Year Ending December 31	Future Minimum Lease Payments
2023	\$ 880,261

Total Capital Contributions	\$ 12,856,384	\$ 14,520,828	\$ 1,664,444
Change in Net Position	\$ 2,212,158	\$ 4,399,568	\$ 2,187,410

Long-Term Debt

In May 2012, the City of Duluth issued General Obligation Airport Improvement Bonds, Series 2012B, on behalf of the Duluth Airport Authority. The bonds have a face value of \$7,650,000 and will be repaid over a period of 15 years. Proceeds of the bonds were used to provide the local match of federal and state grants in relation to a new terminal facility and for funding involved with a new parking ramp, access road, and aprons. In November 2021, the City of Duluth issued General Obligation Airport Refunding Bonds, Series 2021D, on behalf of the Duluth Airport Authority. The bonds have a face value of \$2,845,000 and will be repaid over a period of seven years. Proceeds of the bonds refunded the Series 2012B Bonds. The Duluth Airport Authority entered into a loan

Duluth Airport Authority Duluth, Minnesota

agreement with the City of Duluth and makes loan payments to the City in sufficient amounts for the City to make the required payments on the bonds.

In December 2013, the City of Duluth issued General Obligation Airport Improvement Bonds, Series 2013B, on behalf of the Duluth Airport Authority. The bonds have a face value of \$3,400,000 and will be repaid over a period of 16 years. Proceeds of the bonds were used to provide funding for completion of the parking ramp facilities. The Duluth Airport Authority entered into a loan agreement with the City of Duluth and makes loan payments to the City in sufficient amounts for the City to make the required payments on the bonds.

In November 2015, the City of Duluth issued General Obligation Airport Improvement Bonds, Series 2015C, on behalf of the Duluth Airport Authority. The bonds have a face value of \$2,855,000 and will be repaid over a period of 15 years. Proceeds of the bonds were used to help fund improvements to Hangar 103 for use by Lake Superior College. The Duluth Airport Authority entered into a loan agreement with the City of Duluth and makes loan payments to the City in sufficient amounts for the City to make the required payments on the bonds.

The annual requirements to service the debt at December 31, 2022, are as follows:

Debt Service Requirements as of December 31, 2022

Year Ended December 31	City of Duluth Loan 2013B		City of Duluth Loan 2015C	
	Principal	Interest	Principal	Interest
2023	\$ 275,000	\$ 63,109	\$ 190,000	\$ 56,088
2024	285,000	51,971	195,000	50,388

A summary of the changes in the long-term debt follows:

Summary of Changes in Long-Term Debt as of December 31, 2022

Balance – January 1	\$	6,015,000
Payments		<u>(920,000)</u>
Balance – December 31	\$	<u>5,095,000</u>
Due Within One Year	\$	<u>930,000</u>

Line of Credit

The City of Duluth has extended the Duluth Airport Authority a line of credit of up to \$4,000,000 to assist in the management of cash flows in connection with the Authority's construction and other projects. Interest at a rate of 2.5 percent is charged on drawn funds.

As of December 31, 2022, there was no outstanding balance on the line of credit.

Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health and dental; and natural disasters. The Authority participates in the City of Duluth Joint Powers Enterprise Trust to provide its employees health and dental benefits. The Authority purchases commercial insurance for all other risks of loss. There were no significant reductions in insurance coverage from the previous year. There were no settlements in excess of insurance for any of the past three fiscal years.

Employee health and dental benefits are provided through the City of Duluth Joint Powers Enterprise Trust at premium rates established by the Trust for all plan participants.

Major Customers

Major customers are defined under accounting standards as a single customer from which the enterprise derives ten percent or more of its revenue. In 2022, the Duluth Airport Authority had one major customer of services provided by:

Major Customers for the Year ended December 31, 2022

Customer	Operating Revenues	Percentage of Total Operating Revenues
Delta Airlines	\$ 938,379	16.1%

Duluth Airport Authority

Duluth, Minnesota

Other Postemployment Benefits (OPEB)

Plan Description

The Authority provides postemployment health care benefits and term life insurance coverage in accordance with union contract or Authority policy under a single-employer defined benefit plan. Union contract postemployment benefits extend to Authority employees retiring on or after January 1, 1983, who receive retirement benefits from PERA. In addition, the Authority has extended the same postemployment benefits to Authority employees retired prior to January 1, 1983.

The Authority participates in the City of Duluth Joint Powers Enterprise Trust and pays the required premiums to provide health care benefits and term life insurance for eligible retirees and claimed dependents. Health care premiums are paid by the Authority to the same extent as active employees for the life of the retiree or the surviving spouse. Life insurance premiums are also paid by the Authority for the life of the retiree. Premiums paid for eligible retirees and claimed dependents for health care insurance in 2022 totaled \$105,954.

No assets have been accumulated in a trust that meets the criteria in paragraph four of GASB Statement 75. The OPEB plan does not issue a stand-alone financial report.

As of the January 1, 2021, actuarial valuation, the following employees were covered by the benefit terms:

Employees Covered by the OPEB Benefit Terms As of the January 1, 2021, Actuarial Valuation

Inactive employees or beneficiaries currently receiving benefit payments	23
Active plan participants	<u>22</u>
Total	<u><u>45</u></u>

Total OPEB Liability

The Authority's total OPEB liability of \$3,451,083 was measured as of December 31, 2022, and was determined by an actuarial valuation as of January 1, 2021.

The total OPEB liability in the January 1, 2021, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

OPEB Actuarial Assumptions and Other Inputs

Inflation	2.20 percent
Salary increases	3.50 percent, average wage inflation plus merit/productivity increases
Health care cost trend	8.00 percent, decreasing 0.50 percent per year to an ultimate rate of 5.00 percent

The individual entry age normal as a level percentage of payroll actuarial cost method was used.

The current year discount rate is 1.93 percent, which is a change from the prior year rate of 3.64 percent. For the current valuation, the discount rate was selected from the S&P Municipal Bond 20-year High Grade Rate Index.

Mortality rates are based on the Pub-2010 General Headcount-Weighted Tables.

2026	61,759
2027	35,203

Changes in Actuarial Assumptions

There were no changes in actuarial assumptions for 2022.

Defined Benefit Pension Plan

Plan Description

All full-time and certain part-time employees of the Duluth Airport Authority are covered by defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Plan (the General Employees Plan), which is a cost-sharing, multiple-employer retirement plan. These plans are established and administered in accordance with Minn. Stat. chs. 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

The General Employees Plan (accounted for in the General Employees Fund) has multiple benefit structures with members belonging to the Coordinated Plan, the Basic Plan, or the Minneapolis Employees Retirement Fund. Coordinated Plan members are covered by Social Security, and the Basic Plan and Minneapolis Employees

Duluth Airport Authority

Duluth, Minnesota

Retirement Fund members are not. The Basic Plan was closed to new members in 1967. The Minneapolis Employees Retirement Fund was closed to new members during 1978 and merged into the General Employees Plan in 2015. All new members must participate in the Coordinated Plan, for which benefits vest after five years of credited service. No Authority employees belong to either the Basic Plan or the Minneapolis Employees Retirement Fund.

Benefits Provided

PERA provides retirement benefits as well as disability benefits to members and benefits to survivors upon death of eligible members. Benefit provisions are established by state statute and can be modified only by the state legislature. Benefit increases are provided to benefit recipients each January.

General Employees Plan benefit recipients will receive a post-retirement increase equal to 50 percent of the cost-of-living adjustment announced by the Social Security Administration, with a minimum increase of at least 1.00 percent and maximum of 1.50 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under the Rule of 90 are exempt from the delay to normal retirement.

The benefit provisions stated in the following paragraph of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits, but are not yet receiving them, are bound by the provisions in effect at the time they last terminated their public service.

Benefits are based on a member's highest average salary for any 60 consecutive months of allowable service, age, and years of credit at termination of service. In the General Employees Plan, two methods are used to compute benefits for Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Coordinated Plan member is 1.20 percent of average salary for each of the first ten years of service and 1.70 percent of average salary for each remaining year. Under Method 2, the annuity accrual rate is 1.70 percent for Coordinated Plan members for each year of service. Only Method 2 is used for members hired after June 30, 1989.

For General Employees Plan members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90, and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66. Disability benefits are available for vested members and are based on years of service and average high-five salary.

Contributions

Pension benefits are funded from member and employer contributions and income from the investment of fund assets. Rates for employer and employee contributions are set by Minn. Stat. ch. 353. These statutes are established and amended by the state legislature. General Employees Plan members were required to contribute 6.50 percent of their annual covered salary in 2022. The Authority was required to contribute 7.50 percent of annual covered salary in 2022. The employee and employer rates did not change from 2021.

Duluth Airport Authority Duluth, Minnesota

The Authority's contributions for the General Employees Plan for the year ended December 31, 2022, were \$125,940. The contributions are equal to the contractually required contributions as set by state statute.

Pension Costs

At December 31, 2022, the Authority reported a liability of \$1,647,368 for its proportionate share of the General Employees Plan's net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on the Authority's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2021, through June 30, 2022, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2022, the Authority's proportion was 0.0208 percent. It was 0.0207 percent measured as of June 30, 2021. The Authority recognized pension expense of \$251,379 for its proportionate share of the General Employees Plan's pension expense.

Legislation requires the State of Minnesota to contribute \$16 million to the General Employees Plan annually until September 15, 2031. The Authority recognized an additional \$7,213 as grant revenue and pension expense for its proportionate share of the State of Minnesota's pension expense related to the special funding situation.

General Employees Plan Authority's Share of the Net Pension Liability and the State's Related Liability As of December 31, 2022

The Authority's proportionate share of the net pension liability	\$	1,647,368
State of Minnesota's proportionate share of the net pension liability associated with the Authority		48,274
Total	\$	1,695,642

The Authority reported its proportionate share of the General Employees Plan's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

General Employees Plan Deferred Outflows of Resources and Deferred Inflows of Resources As of December 31, 2022

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 13,760	\$ 17,431
Changes in actuarial assumptions	371,091	6,314
Difference between projected and actual investment earnings	27,946	-
Changes in proportion	47,237	-
Contributions paid to PERA subsequent to the measurement date	64,598	-
Total	\$ 524,632	\$ 23,745

Duluth Airport Authority Duluth, Minnesota

The \$64,598 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2023. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

**General Employees Plan
Schedule of Amortization of
Deferred Outflows and Inflows of Resources
As of December 31, 2022**

Year Ended December 31	Pension Expense Amount
2023	\$ 171,333
2024	166,398
2025	(50,421)
2026	148,979

Actuarial Assumptions

The total pension liability in the June 30, 2022, actuarial valuation was determined using the individual entry-age normal actuarial cost method and the following additional actuarial assumptions:

Actuarial Assumptions for the Year Ended June 30, 2022

	General Employees Fund
Inflation	2.25% per year
Active Member Payroll Growth	3.00% per year
Investment Rate of Return	6.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants were based on the Pub-2010 General Employee Mortality table for the General Employees Plan, with slight adjustments. Cost-of-living benefit increases for retirees are assumed to be 1.25 percent for the General Employees Plan per year through December 31, 2054, and 1.50 percent per year thereafter.

Actuarial assumptions used in the June 30, 2022, valuation were based on the results of actuarial experience studies. The experience study for the General Employees Plan was dated June 27, 2019. A review of inflation and investment assumptions dated July 12, 2022, was utilized.

The long-term expected rate of return on pension plan investments is 6.50 percent. The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages.

Duluth Airport Authority

Duluth, Minnesota

Pension Plan Investment Target Allocation and Best Estimates of Geometric Real Rates of Return for Each Major Asset Class

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equities	33.50%	5.10%
International equities	16.50%	5.30%
Fixed income	25.00%	0.75%
Private markets	25.00%	5.90%

Discount Rate

The discount rate used to measure the total pension liability was 6.50 percent for the General Employees Plan in 2022, which remained consistent with 2021. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the fiduciary net position of the General Employees Plan was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Actuarial Assumptions and Plan Provisions

The following change in actuarial assumptions occurred in 2022:

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

Pension Liability Sensitivity

The following presents the Authority's proportionate share of the net pension liability calculated using the discount rate previously disclosed, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate As of December 31, 2022

	Proportionate Share of the General Employees Plan	
	Discount Rate	Net Pension Liability
1% Decrease	5.50%	\$ 2,602,102
Current	6.50%	1,647,368
1% Increase	7.50%	864,337

Duluth Airport Authority

Duluth, Minnesota

Notes to the Required Supplementary Information For the Year Ended December 31, 2022

Note 1 – Other Postemployment Benefits Funded Status

In 2018, the Duluth Airport Authority implemented Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. See Note 2 in the notes to the financial statements for additional information regarding the Authority's other postemployment benefits.

Note 2 – Other Postemployment Benefits – Changes in Significant Actuarial Methods and Assumptions

Assets have not been accumulated in a trust that meets the criteria in paragraph four of GASB Statement 75 to pay related benefits.

The following changes in actuarial assumptions occurred for the valuation year:

2022

- There were no changes in actuarial assumptions.

2021

- Per-capita costs were updated to reflect experience since the previous valuation as well as the change in TPA from HealthPartners to Medica.
- The discount rate was decreased from 3.64 percent to 1.93 percent, based on changes in the municipal bond yields.
- Base mortality rates were updated from the RPH-2014 Total Dataset Headcount-Weighted tables to the new Pub-2010 General Headcount-Weighted tables.
- The mortality improvement scale was updated from MP-2018 to MP-2020.

2020

- There were no changes in actuarial assumptions.

2019

- Premium equivalent rates were updated to reflect current rates.

2018

- The per-capita costs were updated to reflect experience since the previous valuation.
- The health care trend was shifted to maintain the same immediate rate.

Duluth Airport Authority Duluth, Minnesota

- The mortality was updated to reflect more current rates based on the 2014 SOA study.
- The actuarial cost method was changed to Entry Age Normal as a level percentage of payroll.
- The discount rate decreased from 5.70 percent to 3.70 percent to reflect the current municipal bond market.

Note 3 – Defined Benefit Pension Plan – Changes in Significant Plan Provisions, Actuarial Methods, and Assumptions

The following changes were reflected in the valuation performed on behalf of the Public Employees Retirement Association (PERA) for the fiscal year June 30:

General Employees Retirement Plan

2022

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

2021

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

2020

- The price inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- Assumed salary increase rates were changed as recommended in the June 30, 2019, experience study. The net effect is assumed rates that average 0.25 percent less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019, experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019, experience study. The new rates are based on service and are generally lower than the previous rates for years two through five and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019, experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the Pub-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.

Duluth Airport Authority Duluth, Minnesota

- The assumed number of married male new retirees electing the 100 percent Joint and Survivor option changed from 35 percent to 45 percent. The assumed number of married female new retirees electing the 100 percent Joint and Survivor option changed from 15 percent to 30 percent. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.
- Augmentation for current privatized members was reduced to 2.00 percent for the period July 1, 2020, through December 31, 2023, and 0.00 percent thereafter. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019

- The mortality projection scale was changed from MP-2017 to MP-2018.

2018

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase rate was changed from 1.00 percent per year through 2044 and 2.50 percent per year thereafter, to 1.25 percent per year.
- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00 percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90 percent funding to 50 percent of the Social Security cost of living adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to the Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017

- The Combined Service Annuity (CSA) loads were changed from 0.80 percent for active members and 60 percent for vested and non-vested deferred members (30 percent for deferred Minneapolis Employees Retirement Fund members). The revised CSA loads are now 0.00 percent for active member liability, 15 percent for vested deferred member liability, and 3.00 percent for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year for all years to 1.00 percent per year through 2044 and 2.50 percent per year thereafter.
- Minneapolis Employees Retirement Fund plan provisions change the employer supplemental contribution to \$21 million in calendar years 2017 and 2018 and returns to \$31 million through calendar year 2031. The state's required contribution is \$16 million in PERA's fiscal years 2018 and 2019 and returns to \$6 million

Duluth Airport Authority Duluth, Minnesota

annually through calendar year 2031.

2016

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2035 and 2.50 percent per year thereafter, to 1.00 percent for all future years.
- The assumed investment rate was changed from 7.90 percent to 7.50 percent. The single discount rate was also changed from 7.90 percent to 7.50 percent.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed payroll growth and inflation were decreased by 0.25 percent. Payroll growth was reduced from 3.50 percent to 3.25 percent. Inflation was reduced from 2.75 percent to 2.50 percent.

Notes to the Schedule of Expenditure of Federal Awards As of and for the Year Ended December 31, 2022

Note 1 – Summary of Significant Accounting Policies

Reporting Entity

The Schedule of Expenditures of Federal Awards presents the activities of federal award programs expended by the Duluth Airport Authority, a discretely presented component unit of the City of Duluth, Minnesota. The Authority's reporting entity is defined in Note 1 to the financial statements.

Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the Duluth Airport Authority under programs of the federal government for the year ended December 31, 2022. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Duluth Airport Authority, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Duluth Airport Authority.

Expenditures reported on the schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Note 2 – De Minimis Cost Rate

The Duluth Airport Authority has elected not to use the ten percent de minimis indirect cost rate allowed under the Uniform Guidance.

Note 3 – Reconciliation to Statement of Revenues, Expenses, and Changes in Net Position

Reconciliation to Statement of Revenues, Expenses, and Changes in Net Position

Capital contributions: capital grants – federal	\$ 13,564,441
Differences between expenditures incurred in previous years and related reimbursements	<u>(51,132)</u>

Management and Compliance Section

**Report on Internal Control Over Financial Reporting and on Compliance and
Other Matters Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards***

Independent Auditor's Report

Mayor and City Council
City of Duluth, Minnesota

Board of Directors
Duluth Airport Authority
Duluth, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Duluth Airport Authority, a component unit of the City of Duluth, Minnesota, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated June 21, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Duluth Airport Authority's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Duluth Airport Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Minnesota Legal Compliance

In connection with our audit, nothing came to our attention that caused us to believe that the Duluth Airport Authority failed to comply with the provisions of the contracting – bid laws, depositories of public funds and public investments, conflicts of interest, public indebtedness, claims and disbursements, and miscellaneous provisions sections of the *Minnesota Legal Compliance Audit Guide for Cities*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the Authority's noncompliance with the above referenced provisions, insofar as they relate to accounting matters.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting, compliance, and the provisions of the *Minnesota Legal Compliance Audit Guide for Cities* and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance. Accordingly, this communication is not suitable for any other purpose.

Julie Blaha
State Auditor

June 21, 2023

**Report on Compliance for Each Major Federal Program and for the
Passenger Facility Charge Program and Report on Internal
Control Over Compliance Required by the Uniform Guidance**

Independent Auditor's Report

Mayor and City Council
City of Duluth, Minnesota

Board of Directors
Duluth Airport Authority
Duluth, Minnesota

Report on Compliance for Each Major Federal Program and for the Passenger Facility Charge Program

Opinion on Each Major Federal Program and the Passenger Facility Charge Program

We have audited the Duluth Airport Authority's compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the Authority's major federal programs for the year ended December 31, 2022. The Duluth Airport Authority's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

We have also audited the Duluth Airport Authority's compliance regarding the receiving, holding, and using of passenger facility charge (PFC) revenue, as well as whether the quarterly reports filed by the Authority fairly represent the net transactions of the PFC account in accordance with the Federal Aviation Administration's *Passenger Facility Charge Audit Guide for Public Agencies* (Guide) for the year ended December 31, 2022.

In our opinion, the Duluth Airport Authority complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs and its PFC program for the year ended December 31, 2022.

Basis for Opinion on Each Major Federal Program and the Passenger Facility Charge Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the Guide. Our responsibilities under those standards, the Uniform Guidance, and the Guide, are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Duluth Airport Authority and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program and the PFC program. Our audit does not provide a legal determination of the Duluth Airport Authority's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Duluth Airport Authority's federal programs and its PFC program.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Duluth Airport Authority's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore, is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards*, the Uniform Guidance, and the Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Duluth Airport Authority's compliance with the requirements of each major federal program and the PFC program as a whole.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, *Government Auditing Standards*, the Uniform Guidance, and the Guide, we:

- exercise professional judgment and maintain professional skepticism throughout the audit;
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Duluth Airport Authority's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances; and
- obtain an understanding of the Duluth Airport Authority's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances, and to test and report on internal control over compliance in accordance with the Uniform Guidance and the Guide, but not for the purpose of expressing an opinion on the effectiveness of the Duluth Airport Authority's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a

material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the Guide. Accordingly, this report is not suitable for any other purpose.
