Subject: Superior Street Renovation

Dear City Council,

I would like to urge you to Vote No for the current plan of the renovation of Superior Street. There is an opportunity here being overlooked to provide a more bicycle friendly environment on such a heavily trafficked road. Protected bike lanes would help encourage an active lifestyle and community involvement, and I believe that should be considered within this plan.

If this email would be better suited elsewhere, please inform me. This is an issue close to my heart as an active community member and cyclist.

Thank you,

Alec Kadlec
