Subject: Morgan Park rezoning

I have lived in Morgan Park for most of my life. I live here currently and own my present home for 20 years. Morgan Park is in need of growth. Without growth, we will die. My mother who lived in Morgan Park for 60 years and is 86 years old moved to West Duluth because she needed a nice place to live but she is willing to move back to the new apartments that will be built in the Morgan park school lot. The best thing that has happened to Morgan Park is the Iron Mug. We need more business out here so I am in favor of rezoning Morgan Park for a business zone. With more people moving here, that will help sustain new business. Thank you

Brenda Blasey
