STATEMENT OF PURPOSE:

This resolution delays the implementation of the new adopted stormwater rates by one month. This resolution is deemed to be necessary to compensate for the erroneous implementation of the stormwater increase on January 1, 2021 as opposed to the actual approved date of July 1, 2021. Stormwater rates for the period February 1, 2021 through July 31, 2021 will be charged at the historic rate previously approved. Delay of the stormwater rate increase by one month essentially provides a credit to all users equal to the additional charges erroneously applied to the January invoice. Implementation of this delay in the rate increase will eliminate the need to provide a refund on the stormwater rate charged to approximately 28,000 customers.
