### Proposal

The applicant is proposing a vacation of an utility right of way. This is to cure a slight encroachment of the building into the existing utility easement. The vacation is for one foot of a sixteen foot wide utility easement. The city will still have 15 feet of the utility easement available for future utility usage.

### Summary of Code Requirements (reference section with a brief description):

Vacation of public rights of way and/or easements require a Planning Commission public hearing with a recommendation to City Council. City Council action is to approve or deny by resolution. Resolutions approving either a full or partial vacation require a 6/9's vote of the council.

Code requirements are found in UDC Section 50-37.6. The Planning Commision shall review the proposed vacation, and council shall approve the proposed vacation, or approve it with modifications, if it determines that the street, highway, or easement proposed for vacation:

- 1.) Is not and will not be needed for the safe and efficient circulation of automobiles, trucks, bicycles or pedestrians or the efficient supply of utilities or public services in the city;
- 2.) Where the street terminates at a waterfront or shoreline, the street is not and will not be needed to provide pedestrian or recreational access to the water;
- 3.) Is not otherwise needed to promote the public health, safety or welfare of the citizens of Duluth.

II. B-1

**Comprehensive Plan Findings (Governing Principle and/or Policies) and Current History (if applicable):**

Governing Principle #2: Reuse previously develop lands.  
Governing Principle #7: Create and maintain connectivity.

Future Land Use - Auto-Oriented Commercial: Commercial and office development focused primarily on needs and convince of the motorist, without losing pedestrian access and connection. No Residential uses. Situated along arterial roads. Can include a mix of auto- and neighborhood-oriented commercials uses or transition into neighborhood commercial.

**Discussion (use numbered or bullet points; summarize and attach department, agency and citizen comments):**

Staff finds that:

- 1.) The easement is 16' wide and runs from 78th Avenue West to 75th Avenue West. Currently the right of way is undeveloped.
- 2.) The City does not anticipate the need for a road in this location under current land use plans. No development is proposed in this location. There are no current utilities located in the proposed right of way vacation
- 3.) This right of way is not and will not be needed for the safe and efficient circulation of automobiles, trucks, bicycles or pedestrians or the efficient supply of utilities or public services in the City; the right of way is not and will not be needed to provide pedestrian or recreational access to the water; and the public right of way is not otherwise needed to promote the public health, safety or welfare of the citizens of Duluth.
- 4.) City Engineering has stated the vacation is acceptable. Parks and Recreation has stated that this vacation will not affect the Cross City Trail and is acceptable.
- 5.) Vacations of streets lapse unless the vacation is recorded with the county recorder within 90 days after final approval. The Duluth City Clerk facilitates the recording process, after City Council approval.

**Staff Recommendation (include Planning Commission findings, i.e., recommend to approve):**

Based on the above findings, Staff recommends that Planning Commission recommend approval of the vacation of the utility easement, without any conditions

**Attachments (aerial photo with zoning; future land use map; site plan; copies of correspondence)**
