Dear Community Partner:

Thank you for your interest in proposing an improvement project for City property. We recognize that working closely with the community is an important way we can fulfill our responsibility to develop long-term strategies, plans and improvements that benefit the greatest number of constituents possible and effectively use limited resources.

Each year there are numerous requests for projects on City property. To better respond to the requests, the City has developed a system that will result in better communications, tracking and processing of project proposals. It establishes Parks and Recreation as the City entity that will: (1) accept and review all submitted parks related Project Proposal Forms; (2) conduct an internal review to determine compatibility with all parks planning documents, industry best practices, and standards set by the Division, (3) pending preliminary approval by parks review staff, forward to appropriate city staff in other divisions, (4) if approved, facilitate the process to project completion. Once your project proposal request is received, staff will initiate the review process, with the intent to provide a response within sixty (60) days.

The intent of this process is to expedite decision making, properly evaluate proposals against existing plans, standards, and uses; clarify the approval process, reduce confusion and miscommunication, and provide a central point of contact to respond to questions and concerns. At any point in the process, Parks and Recreation can be contacted to respond to questions or concerns.

In past years, this process has seen a number of projects completed for the betterment of our community, including installation of park benches, playfield renovations and community beautification projects. Proposals may be submitted by individuals and community organizations, as well as City staff.

Please note that acquiring funds for a project through CDBG, a DNR grant, fundraising, donations or other means does not guarantee project acceptability. Any project on City property must also receive recommendation and approval by the appropriate City officials. It is strongly recommended that City approval should occur in advance of, or at least concurrent with, pursuing funding.

If you have any questions, please contact Jessica Schoonover at (218) 730-4325.

Sincerely,

Jessica Peterson
