BACKGROUND: This resolution authorizes the City officials to enter into and accept a temporary construction easement from Christine A. King, Trustee of the Chris King Revocable Trust Under Agreement Dated November 1, 2018 (also known as the Christine A. King Revocable Trust Under Agreement dated November 1, 2018) and Christine A. Between 2026-2028, the City will be completing a reconstruction of Superior Street from Carlton Street to West Michigan Street (the "Project"). The new street will be a bituminous road with curb and gutter. ADA compliant sidewalks, multi-use trails, improved street lighting and better green space will also be added to the corridor. All watermains and storm sewer will be replaced as part of the Project.

The majority of the Project will be completed within existing right-of-way or soon to-be-acquired right-of-way, but there are a few areas where temporary use of property throughout the duration of the Project is need to appropriately tie in property to the existing or future right-of-way. This work may include the following items: slope grading, sidewalk tie-in, driveway, retaining wall and/or ramp tie-in, asphalt replacement, and drainage features. The authorization and acceptance of this temporary construction easement agreement allows the City to complete the Project and tie in private property to the City's right-of-way.

BUDGET/FISCAL IMPACT: None
