**PREVIOUS COUNCIL ACTION:**

July 10, 2023: Council approved a cooperative agreement with St. Louis County for preliminary engineering design services to include the city portion of 40<sup>th</sup> Ave. West from Grand Ave. to Interstate 35.

**BACKGROUND:** As part of the proposed reconstruction of 40<sup>th</sup> Street on the agenda for municipal consent, this resolution establishes a no-parking zone on 40<sup>th</sup> Ave West between Grand Ave and North 4<sup>th</sup> Street. This zone would be established after proper signage is installed as part of this project. The removal of parking in this block is required with the proposed construction of a mini-roundabout, allowing the intersection to function as designed.

The parking along 40<sup>th</sup> Avenue West was presented to the Parking Commission for approval on April 4, 2025. The Commission approved of the changes. No members from the public were present at this meeting. The project has had multiple public meetings with opportunities for feedback from residents.

**BUDGET/FISCAL IMPACT:** None for this approval.

**OPTIONS:** Approve or delay capital improvements the county has programmed.

**NECESSARY ACTION:** Approve Municipal Consent for the project.
