

Council Agenda Item: 25-0637R

MEETING DATE: August 11, 2025

SUBJECT/TITLE: RESOLUTION TO AMEND CONTRACT L30877 WITH LHB, INC., FOR THE NIAGARA STREET BRIDGE REPLACEMENT PROJECT (BRIDGE NO. L5931), TO INCREASE THE AMOUNT BY \$21,390.00 FOR A NEW TOTAL OF \$59,825.00.

SUBMITTED BY: Duncan Schwensohn

RECOMMENDATION: Approve

BOARD/COMMISSION/COMMITTEE RECOMMENDATION: N/A

PREVIOUS COUNCIL ACTION: N/A

BACKGROUND: This resolution authorizes an amendment to a professional engineering service contract with LHB Inc. to design the replacement for the Niagara Street Bridge crossing of Chester Creek west of Kenwood Avenue. After a rainstorm in 2023, the Niagara Street Bridge began to fail. The initial repair did not hold and LHB provided out of scope services to design a temporary repair that was intended to last until the bridge could be replaced. The temporary repair was constructed and is holding.

LHB has continued with the design for the replacement of this bridge, but the funding is not sufficient to finish the final design. This resolution will add the necessary funds to pay LHB inc. to complete the final design and assist during bidding.

BUDGET/FISCAL IMPACT: The Engineering Department will use budgeted capital funds payable from the Street Improvement Sales Tax Fund 291.

OPTIONS: Authorize the amendment or not authorize and risk the bridge failing before it is replaced.

NECESSARY ACTION: Authorize the amendment.

ATTACHMENTS: Project location maps; Proposed Amendment 1 to City Contract L30887.
