Proposal

The applicant is proposing a vacation of an undeveloped utility easement. The undeveloped utility easement is 10 feet wide and 180 feet long. The area to be vacated is approximately 1,800 square feet.

Summary of Code Requirements (reference section with a brief description):

Vacation of public rights of way and/or easements require a Planning Commission public hearing with a recommendation to City Council. City Council action is to approve or deny by resolution. Resolutions approving either a full or partial vacation require a 6/9's vote of the council.

Code requirements are found in UDC Section 50-37.6. The Planning Commission shall review the proposed vacation, and council shall approve the proposed vacation, or approve it with modifications, if it determines that the street, highway, or easement proposed for vacation:

- 1.) Is not and will not be needed for the safe and efficient circulation of automobiles, trucks, bicycles or pedestrians or the efficient supply of utilities or public services in the city;
- 2.) Where the street terminates at a waterfront or shoreline, the street is not and will not be needed to provide pedestrian or recreational access to the water;
- 3.) Is not otherwise needed to promote the public health, safety or welfare of the citizens of Duluth.

II. B-1

Comprehensive Plan Findings (Governing Principle and/or Policies) and Current History (if applicable):

Principle #1: Reuse previously developed lands.

Future Land Use - Preservation: Lands with substantial restrictions. High natural resource or scenic value, or severe development limitations. Primarily public lands but limited private use is anticipated subject to use and design controls. Examples include: most city parklands and primary viewsheds; shorelands of lake, rivers, streams; wetlands and floodplains; high-value habitat; low-intensity private or public uses.

Future Land Use - Rural Residential: Areas of single-family lots of at least five acres. Limits the extension of municipal utilities for new development. Includes existing rural density areas with lots as small as an acre now served by municipal utilities but not planned for further subdivision.

Discussion (use numbered or bullet points; summarize and attach department, agency and citizen comments):

Staff finds that:

- 1.) The easement is 10' wide and 180' long. Currently the right of way is undeveloped.
- 2.) The City does not anticipate the need for a road in this location under the current land use plans. There are currently no utilities located under the proposed right of way vacation.
- 3.) Based on the above findings, this alley is not and will not be needed for the safe and efficient circulation of automobiles, trucks, bicycles or pedestrians or the efficient supply of utilities or public services in the city; and is not otherwise needed to promote the public health, safety or welfare of the citizens of Duluth.
- 4.) The vacations will not deprive any currently platted lots of access to a public right of way, and will not result in any dead ends.
- 5.) No public, agency, or City comments were received.
- 6.) Vacations are approved by the City Council via a resolution. Vacations lapse unless a plat showing the vacation is recorded with the county recorder within 90 days after final approval. The Duluth City Clerk facilitates the recording process.

Staff Recommendation (include Planning Commission findings, i.e., recommend to approve):

Based on the above findings, Staff recommends that Planning Commission recommend approval of the utility right of way vacation, with no conditions.
