Proposal

The City is proposing to rezone this property from the current zoning districts of Rural-Residential1(RR-1) to Park and Mixed Use Business Park (MU-B).

	Current Zoning	Existing Land Use	Future Land Use Map Designation
Subject	RR-1	Commercial	General Mixed Use
North	RR-1/MU-B	Commercial/Residential	General Mixed Use
South	RR-1/MU-B	Residential/Commercial	Preservation/Business Park
East	RR-1	Residential	Preservation
West	RR-1	Undeveloped (Airport)	Preservation

Summary of Code Requirements

- UDC Sec. 50-37.3.B: Planning Commission shall review the application, conduct a public hearing ... with public notice ... and make a written recommendation to council.
- UDC Sec. 50-37.3.C: The Planning Commission shall review the application, and Council shall approve the application or approve it with modifications, if it determines that the application:
 1. Is consistent with the Comprehensive Land Use Plan; 2. Is reasonably related to the overall needs of the community, to existing land use, or to a plan for future land use; 3. Is required by public necessity, convenience, or general welfare, or good zoning practice; 4. Will not create material adverse impacts on nearby properties, or if material adverse impacts may be created they will be mitigated to the extent reasonably possible.
- The Minnesota Planning Act provides that zoning (an "official control") should implement the general objectives of the Comprehensive Plan and appellate courts have issued decisions that zoning must comply with the Comprehensive Plan or else be considered arbitrary and capricious.

Comprehensive Plan Governing Principle and/or Policies and Current History (if applicable):

Principle #1 – Reuse previously developed lands.

The Planning Commission voted to approve changes to the UDC to allow mini-storage facilities in areas that are zoned RR-1 AND are in Airport Overlay Zone B (Ordinance 10329, approved October 16, 2014).

Past City Action: Res 95-0843 (Planning File 95-116) original Special Use Permit. Res 96-0921 (Planning File 96-139) allowed to sell one car at a time (to expire after 1 year); denied request for rental car operations and truck rental. Res 97-0869 (Planning File 97-129) allow additional storage structure. Res 01-0740 (Planning File 01-127) allow additional storage structure. Most recently, on September 23, 2014, the Planning Commission approved (PL14-134) a Special Use Permit to construct an approximately 21,000 square foot additional mini storage facility, with conditions (landscaping, survey to verify setbacks of existing structures, etc).

Other City Action. The city rezoned 160 acres of property approximately 1,000 feet north of the subject parcel last year (PL 15-064), from RR-1 to MU-B, that also had the "General Mixed Use" future land use designation.

Review and Discussion Items

- 1) The Minnesota Planning Act provides that zoning (an "official control") should implement the general objectives of the Comprehensive Plan, and appellate courts have issued decisions that zoning must comply with the Comprehensive Plan or be considered arbitrary and capricious. Good zoning practice requires that zone districts be consistent with the future land use category identified for the area.
- 2) The property is currently zoned RR-1, and the City is proposing to rezone to MU-B. The RR-1 district is established to accommodate large-lot, single-family detached residential uses, typically surrounded by significant open space, on lots of at least 5 acres each. The district encourages distinctive neighbor-hoods with a semi-rural character. Complimentary uses such as limited agriculture, small-scale institutional uses, parks, minor utilities and certain temporary uses are allowed. The MU-B district is intended to accommodate modern light industrial and technology-based developments of attractive integrated design and function. The development standards for this district are intended to ensure that projects minimize adverse impacts on surrounding uses and neighborhoods, reduce impacts on the natural environment, enhance the visual quality of development and ensure the provision of adequate and cost-efficient public facilities. Intended uses include wholesaling, industrial services, research laboratories, and light manufacturing needed to support the community and region at large.
- 3) The future land use designation of this property is General Mixed Use. It is the broadest mix of uses, including light industrial, office, commercial, and residential use, with performance standards to ensure compatibility. Includes areas that are in transition from industrial uses and large redevelopments that require master plans and phased development. General or heavy industrial can be included when a large site is master planned to allow appropriate separation of uses.
- 4) Based on the future land use designation, the current land use of the property, and the purpose statements of the RR-1 and MU-B zone districts, rezoning to MU-B is appropriate for this subject area.
- 5) The site is in Airport Safety Zones B and is subject to the general land use restrictions concerning interfering with aircraft operation and navigation. Restrictions on uses in Zone B will affect the density and development of the site, particularly with development that may moderately or greatly increase the number of visitors to the site. The rezoning to MU-B will not impact nor change the current standards and limitations imposed upon the Airport Safety Overlay Zone.
- 6) A proposed rezoning from any residential district to any mixed use district has a higher standard for Council approval than other rezoning. Because the rezoning application was initiated by the City without a petition with the written consent of 2/3 of the property owners within 100 feet of the property to be rezoned, this will require a super majority vote of the City Council to approve it (as opposed to the standard requirement of a simple majority vote).
- 7) The city received a comment from St. Louis Public Works: any new entrances or modifications to existing entrances onto Rice Lake Road must be permitted by the St. Louis County Public Works Department.

Staff Recommendation

Based on the above findings, staff recommends that the Planning Commission recommend approval to the City Council of the rezoning from Residential-Rural 1 (RR-1) and Industrial-General (I-G) to Park and Open Space (P-1) is the zone most reasonably able to implement the objectives of the Comprehensive Plan related to the proposed land use for this area.

2) The rezoning is consistent with the Comprehensive-Plan Future Land Use Map.

3) Material adverse impacts on nearby properties are not anticipated.
