Proposal

Applicant requests that the City vacate an alley in exchange for a pedestrian easement directly west of the alley. The applicant intends to use the alley to create access to the house via a driveway and garage.

	Current Zoning	Existing Land Use	Future Land Use Map Designation
Subject	R-1	Single-family residential	Traditional Neighborhood
North	P-1	Park & open space (Hawk Ridge)	Preservation
South	R-1	Single-family residential	Traditional Neighborhood
East	R-1	Single-family residential	Traditional Neighborhood
West	R-1	Single-family residential	Traditional Neighborhood

Summary of Code Requirements

Vacation of public rights of way and/or easements require a Planning Commission public hearing with a recommendation to City Council. City Council action is to approve or deny by resolution. Resolutions approving either a full or partial vacation require a 6/9's vote of the council.

UDC Section 50-37.6C: The Planning Commission shall review the proposed vacation, and the Council may approve the proposed vacation, or approve it with modifications, if it determines that the street, highway or easement proposed for vacation:

1. Is not and will not be needed for the safe and efficient circulation of automobiles, trucks, bicycles or pedestrians or the efficient supply of utilities or public services in the city;
2. Where the street terminates at a waterfront or shoreline, the street is not and will not be needed to provide pedestrian or recreational access to the water;
3. Is not otherwise needed to promote the public health, safety or welfare of the citizens of Duluth.

Comprehensive Plan Governing Principle and/or Policies and Current History (if applicable):

Governing Principle #7 – Create and maintain connectivity.

Future Land Use – Traditional Neighborhood: Characterized by grid or connected street pattern, houses oriented with shorter dimension to the street and detached garages, some with alleys. Limited commercial, schools, churches, and home businesses. Parks and open space areas are scattered through or adjacent to the neighborhood.

This proposal is consistent with the principle of creating and maintain connectivity by allowing for a pedestrian easement for connection to Hawk Ridge,

Review and Discussion Items

Staff finds that:

- 1.) Proposal is to vacate an undeveloped alley that lies between two parcels owned by the applicant. Applicant would like to extend driveway closer to his house, with an attached garage.
- 2.) Alley dead-ends on the north at Hawk Ridge, and steep slopes make alley construction infeasible. Adjacent property owners do not need alley for access. This right of way is not and will not be needed for the safe and efficient circulation of automobiles or pedestrians.
- 3.) There are no city utilities located in the right of way. There are utilities to the south along Norwood Street providing services to houses in the area. There are no plans to extend any utilities within this right of way. Right of way is not needed for the efficient supply of utilities or public services in the city.
- 4.) In 2015, Community Planning coordinated with Parks and Recreation to determine need for any future pedestrian trails in this vicinity. Parks staff noticed a lack of pedestrian trails connecting this neighborhood to Hawk Ridge, and requested the retention of a pedestrian easement. Applicant is proposing a new pedestrian easement over the western portion of his property, so the existing alley will no longer be needed to provide pedestrian accommodations. The new easement must be dedicated before the vacation would become effective.
- 5.) Applicant has an existing shed within the area denoted for a future pedestrian easement. Staff recommends that this shed be completely removed before recording any vacation and new easement.
- 6.) The right of way is not otherwise needed to promote the public health, safety, or welfare of the citizens of Duluth.
- 7.) No other public, agency, or City comments have been received.
- 8.) Vacations of streets lapse unless recorded with the County Recorder's office within 90 days after final approval. The vacation recording is facilitated by the City of Duluth.

Staff Recommendation

Based on the above findings, Staff recommends that the Planning Commission recommend approval of the vacation of the street easement and retention of a pedestrian easement, with the following conditions:

1. Existing shed within the new pedestrian easement shall be removed within 30 days, and confirmed by a staff inspection, so that the alley vacation can then be recorded.
2. Any alterations to the approved plans that do not alter major elements of the plan may be approved by the Land Use Supervisor without further Planning Commission; however, no such administrative approval shall constitute a variance from the provisions of Chapter 50.
