Subject: PolyMet

Please vote for a fact-based hearing before voting on PolyMet's permit applications. This is for our future generations. Although there are people looking for "good" paying jobs, its about time they "retool" and find other sources of revenue.

Mining by the biggest bodies of fresh water in the United States is NOT a good idea. So many of us realize the value in what we have. Those of us trying to stop Polymet are not "selfish", its about protecting our environment and **health!** Without health, what does life truly mean? Money can't bring health back.

Do the right thing and support the Duluth for Clean Water's request. . . . and do not support PolyMet because of the economic impact.

Thank You
