Proposal

Applicant is requesting a Minor Subdivision to divide one platted lot into two lots. The current parcel is 57,342 square feet and the division will create a 15,658 square foot parcel (A) and a 41,713 square foot parcel (B).

North	R-1	Residential	Traditional Neighborhood

East	R-1	Residential	Traditional Neighborhood

Summary of Code Requirements

50-33.1 General: All subdivision plats and replats, and all registered land surveys, shall create lots, streets and walkways and open spaces consistent with the requirements of the zone district within which the land is located.

50-37.5, D 1. The planning commission shall approve the application if it determines that the application:

- (a) The lot or lots to be subdivided or combined have frontage on an improved public street;
- (b) Each proposed lot meets the minimum zoning requirements of the district that it is in.
- (c) If an existing structure on a lot complies with the requirements of this Chapter, then after the minor subdivision structures on each of the resulting lots will still comply with the requirements of this Chapter; and
- (d) If one or more of the existing lots, or a structure on one or more of those lots, does not comply with the requirements of this Chapter, the proposed relocation will not create any new nonconformity or increase any existing nonconformity between the requirements of this Chapter.

Comprehensive Plan Governing Principle and/or Policies and Current History (if applicable):

Governing Principle #1 - Reuse previously developed lands. Directs investment to sites which have the potential to perform at a higher level than their current state.

Governing Principle #8 – Encourage a mix of activities, uses, and densities.

Future Land Use – Traditional Neighborhood - Characterized by grid or connected street pattern, houses oriented with shorter dimension to the street and detached garages, some with alleys. Limited commercial, schools, churches, and home-businesses. Parks and open space areas are scattered through or adjacent to the neighborhood. Includes many of Duluth's older neighborhoods, infill projects and neighborhood extensions, and new traditional neighborhood areas.

The current lot is 57,342 square feet and contains a 3,986 square foot single-family residence built in 1994. In 2010, RLS No. 93 was created for the property.

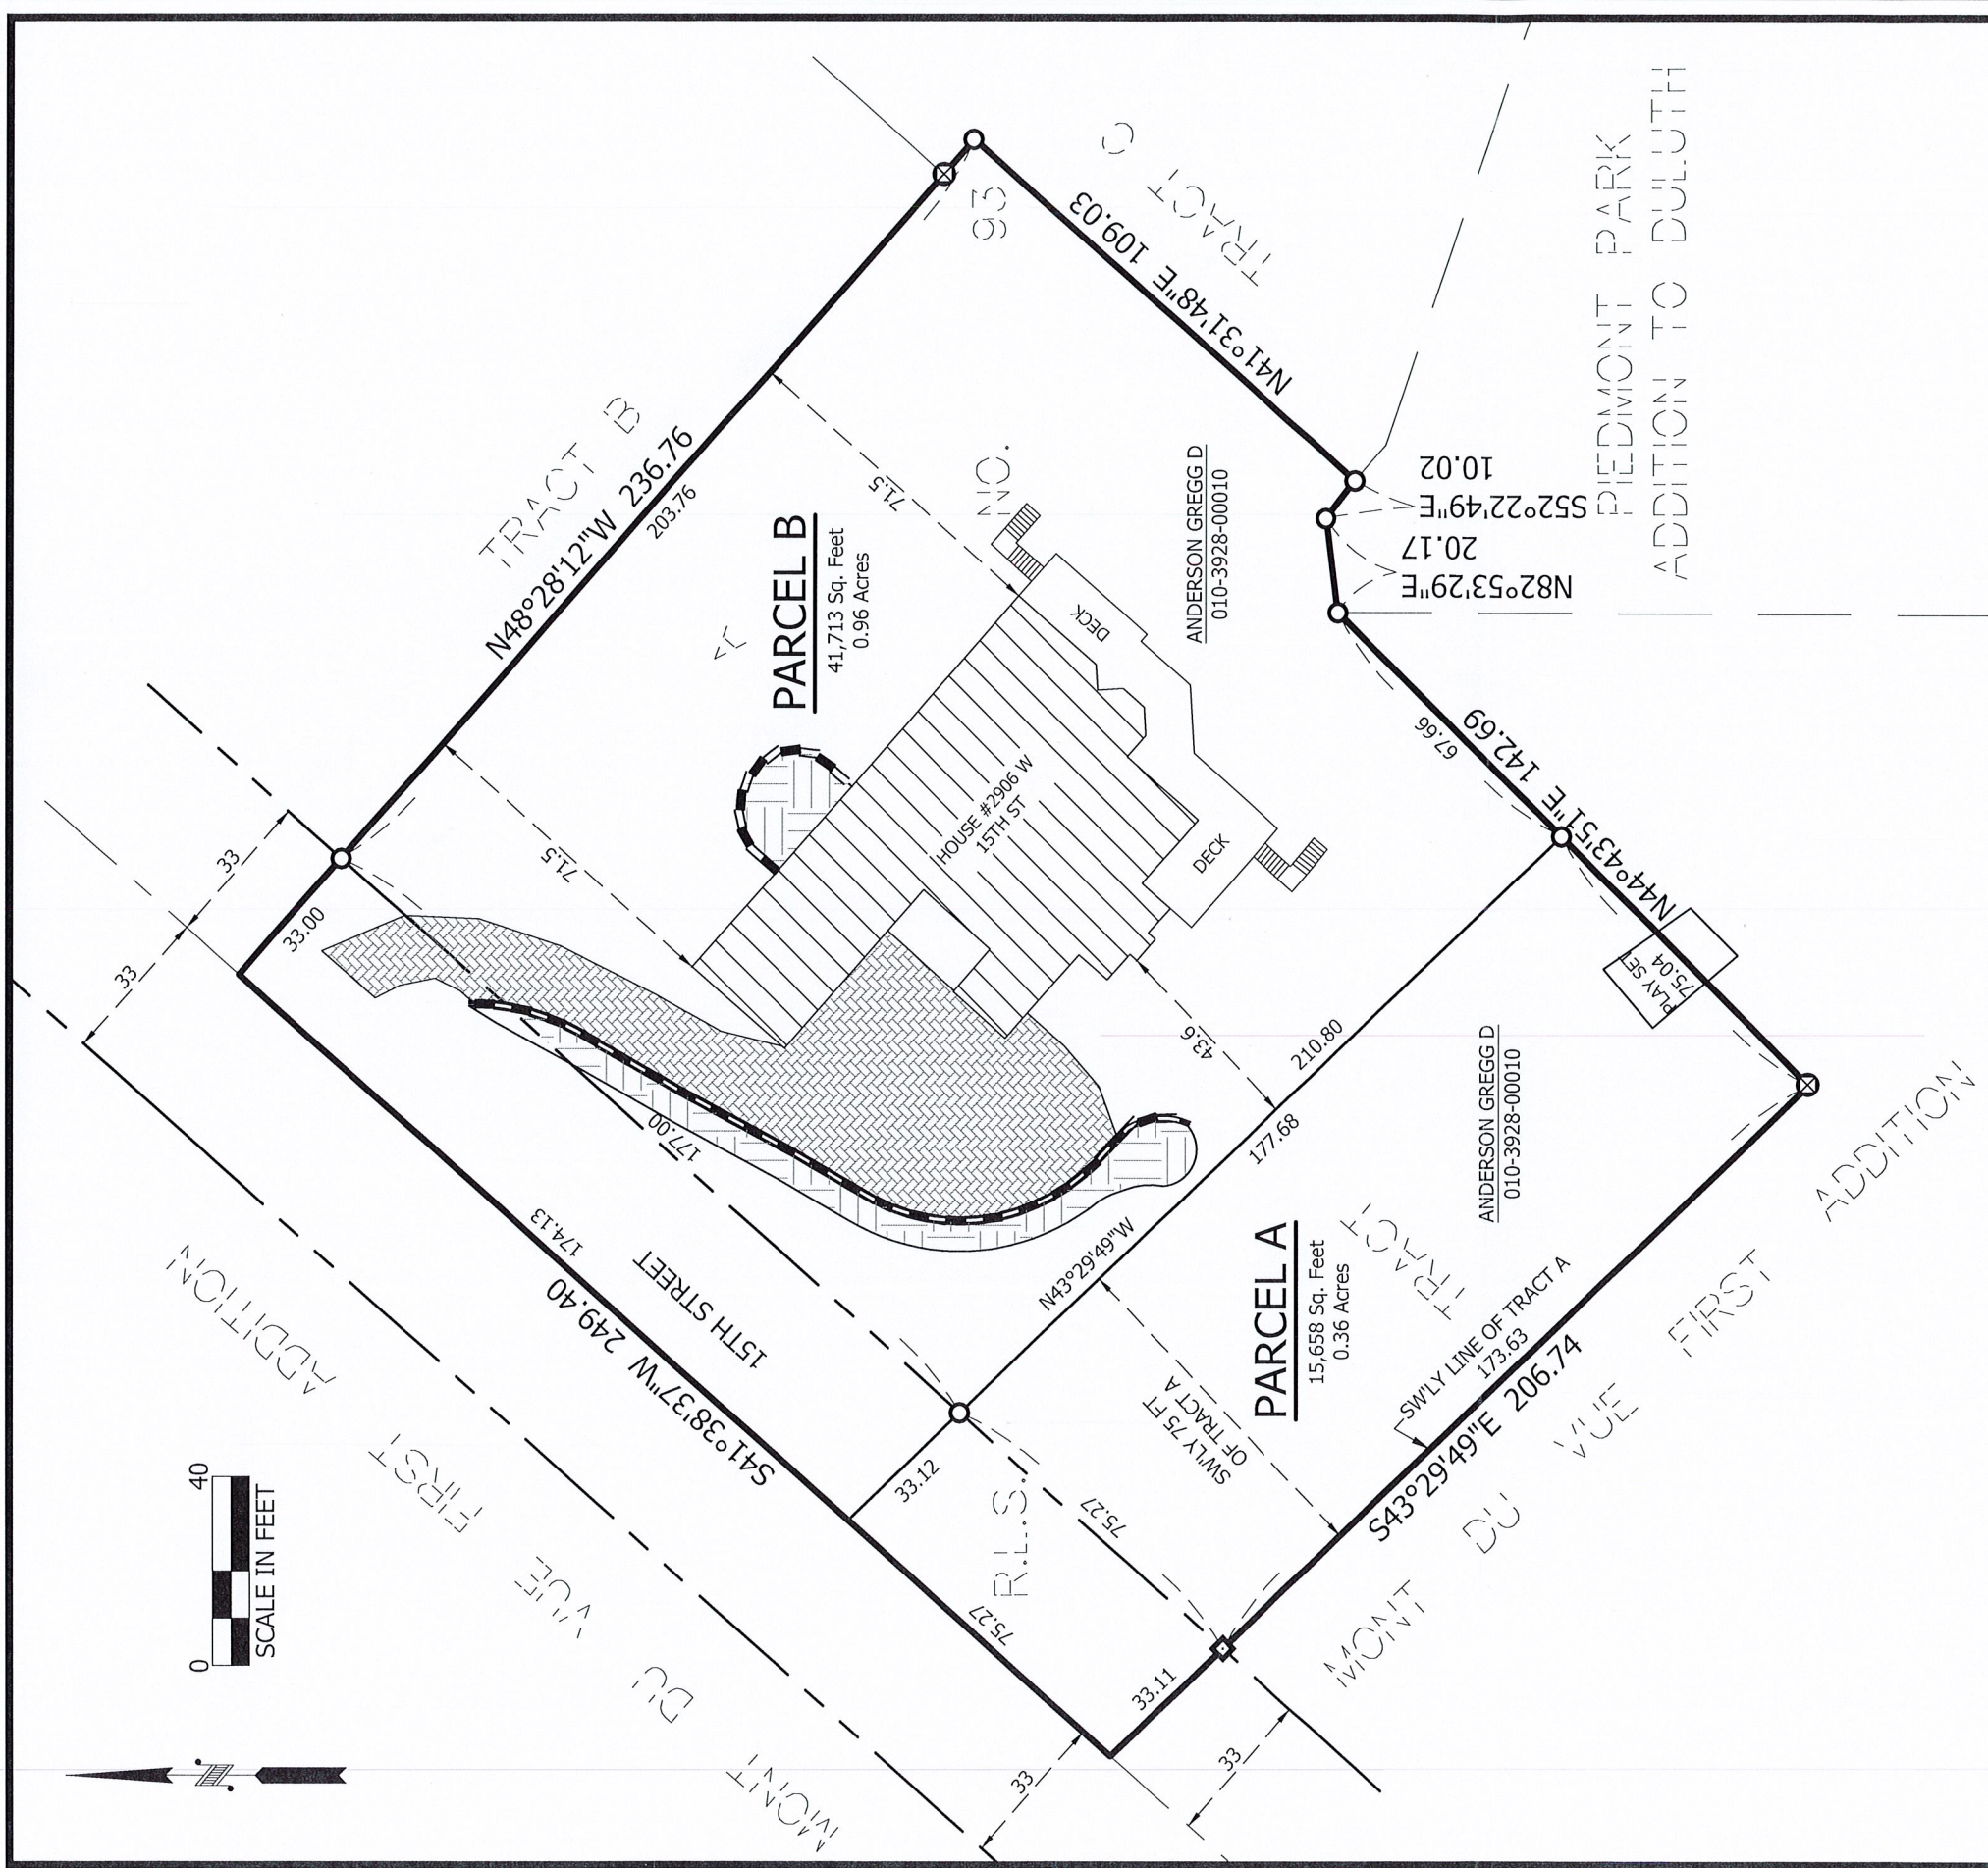

Review and Discussion Items

1. Applicant is requesting a Minor Subdivision to divide a single lot into two lots. One lot will contain the existing home and the other will remain building for a future home on the property. The proposed subdivision, if approved, would not make the parcels non-conforming due to lot frontage, lot area, or similar bulk standard.
2. One comment was received regarding a private covenant on the property, but has no bearing on staff recommendation for this minor subdivision. No additional public, agency, or City comments were received.
3. No existing platted right of way is being proposed to be vacated with this proposal.
4. The attached exhibit demonstrates compliance with Minnesota statutes 462.358 and 505 or 508, as applicable.
5. Approval of this Minor Subdivision signifies that City of Duluth UDC standards are met. St. Louis County may have additional requirements. This subdivision approval lapses if deeds are not recorded with St. Louis County within 180 days. Applicant must provide the City with proof of recording.

Staff Recommendation

Based on the above findings, Staff recommends that Planning Commission approve the Minor Subdivision subject to the following conditions:

1. Appropriate deeds be filed with St. Louis County within 180 days. Prior to recording the deed that results from this adjustment, the Planning Division will need to stamp the deed, indicating compliance with the local zoning code.
2. Any alterations to the approved plans that do not alter major elements of the plan may be approved by the Land Use Supervisor without further Planning Commission approval; however, no such administrative approval shall constitute a variance from the provisions of Chapter 50.
