The 1000 foot section of Lakewalk from 4th Avenue E to 7th Avenue E was severely damaged in the October 2017 and April 2018 storms. Phase 2 construction will include stabilization of the remaining 650 feet of shoreline, new pavement and boardwalk, and site restoration for the length of the project area, shown in Exhibit A. This is part of a larger project that has been approved for state disaster recovery reimbursement. It is anticipated that approximately 75% of the total cost of this phase of work will be reimbursed by the state.
