The purchasing division posted a request for bids on February 19, 2016, on the city's website. Bidders were required to state that they would hold their bid price for one year from date of purchase to allow the Fire Department the opportunity to purchase additional unit(s) at the low bid price. Three bids were received by the closing date and referred to the fire department's apparatus committee. The committee recommended that the purchase be awarded to the low bidder, Custom Fire. City Council approved the award on April 11, 2016. This will be an additional purchase from that award.
